Digitized global sourcing with real-time demand fulfillment and inventory control

Our client

Europe-based global leader in branded merchandise solutions

150+
countries

120+
global brands

100+
product categories

1.5 Million
orders shipped annually

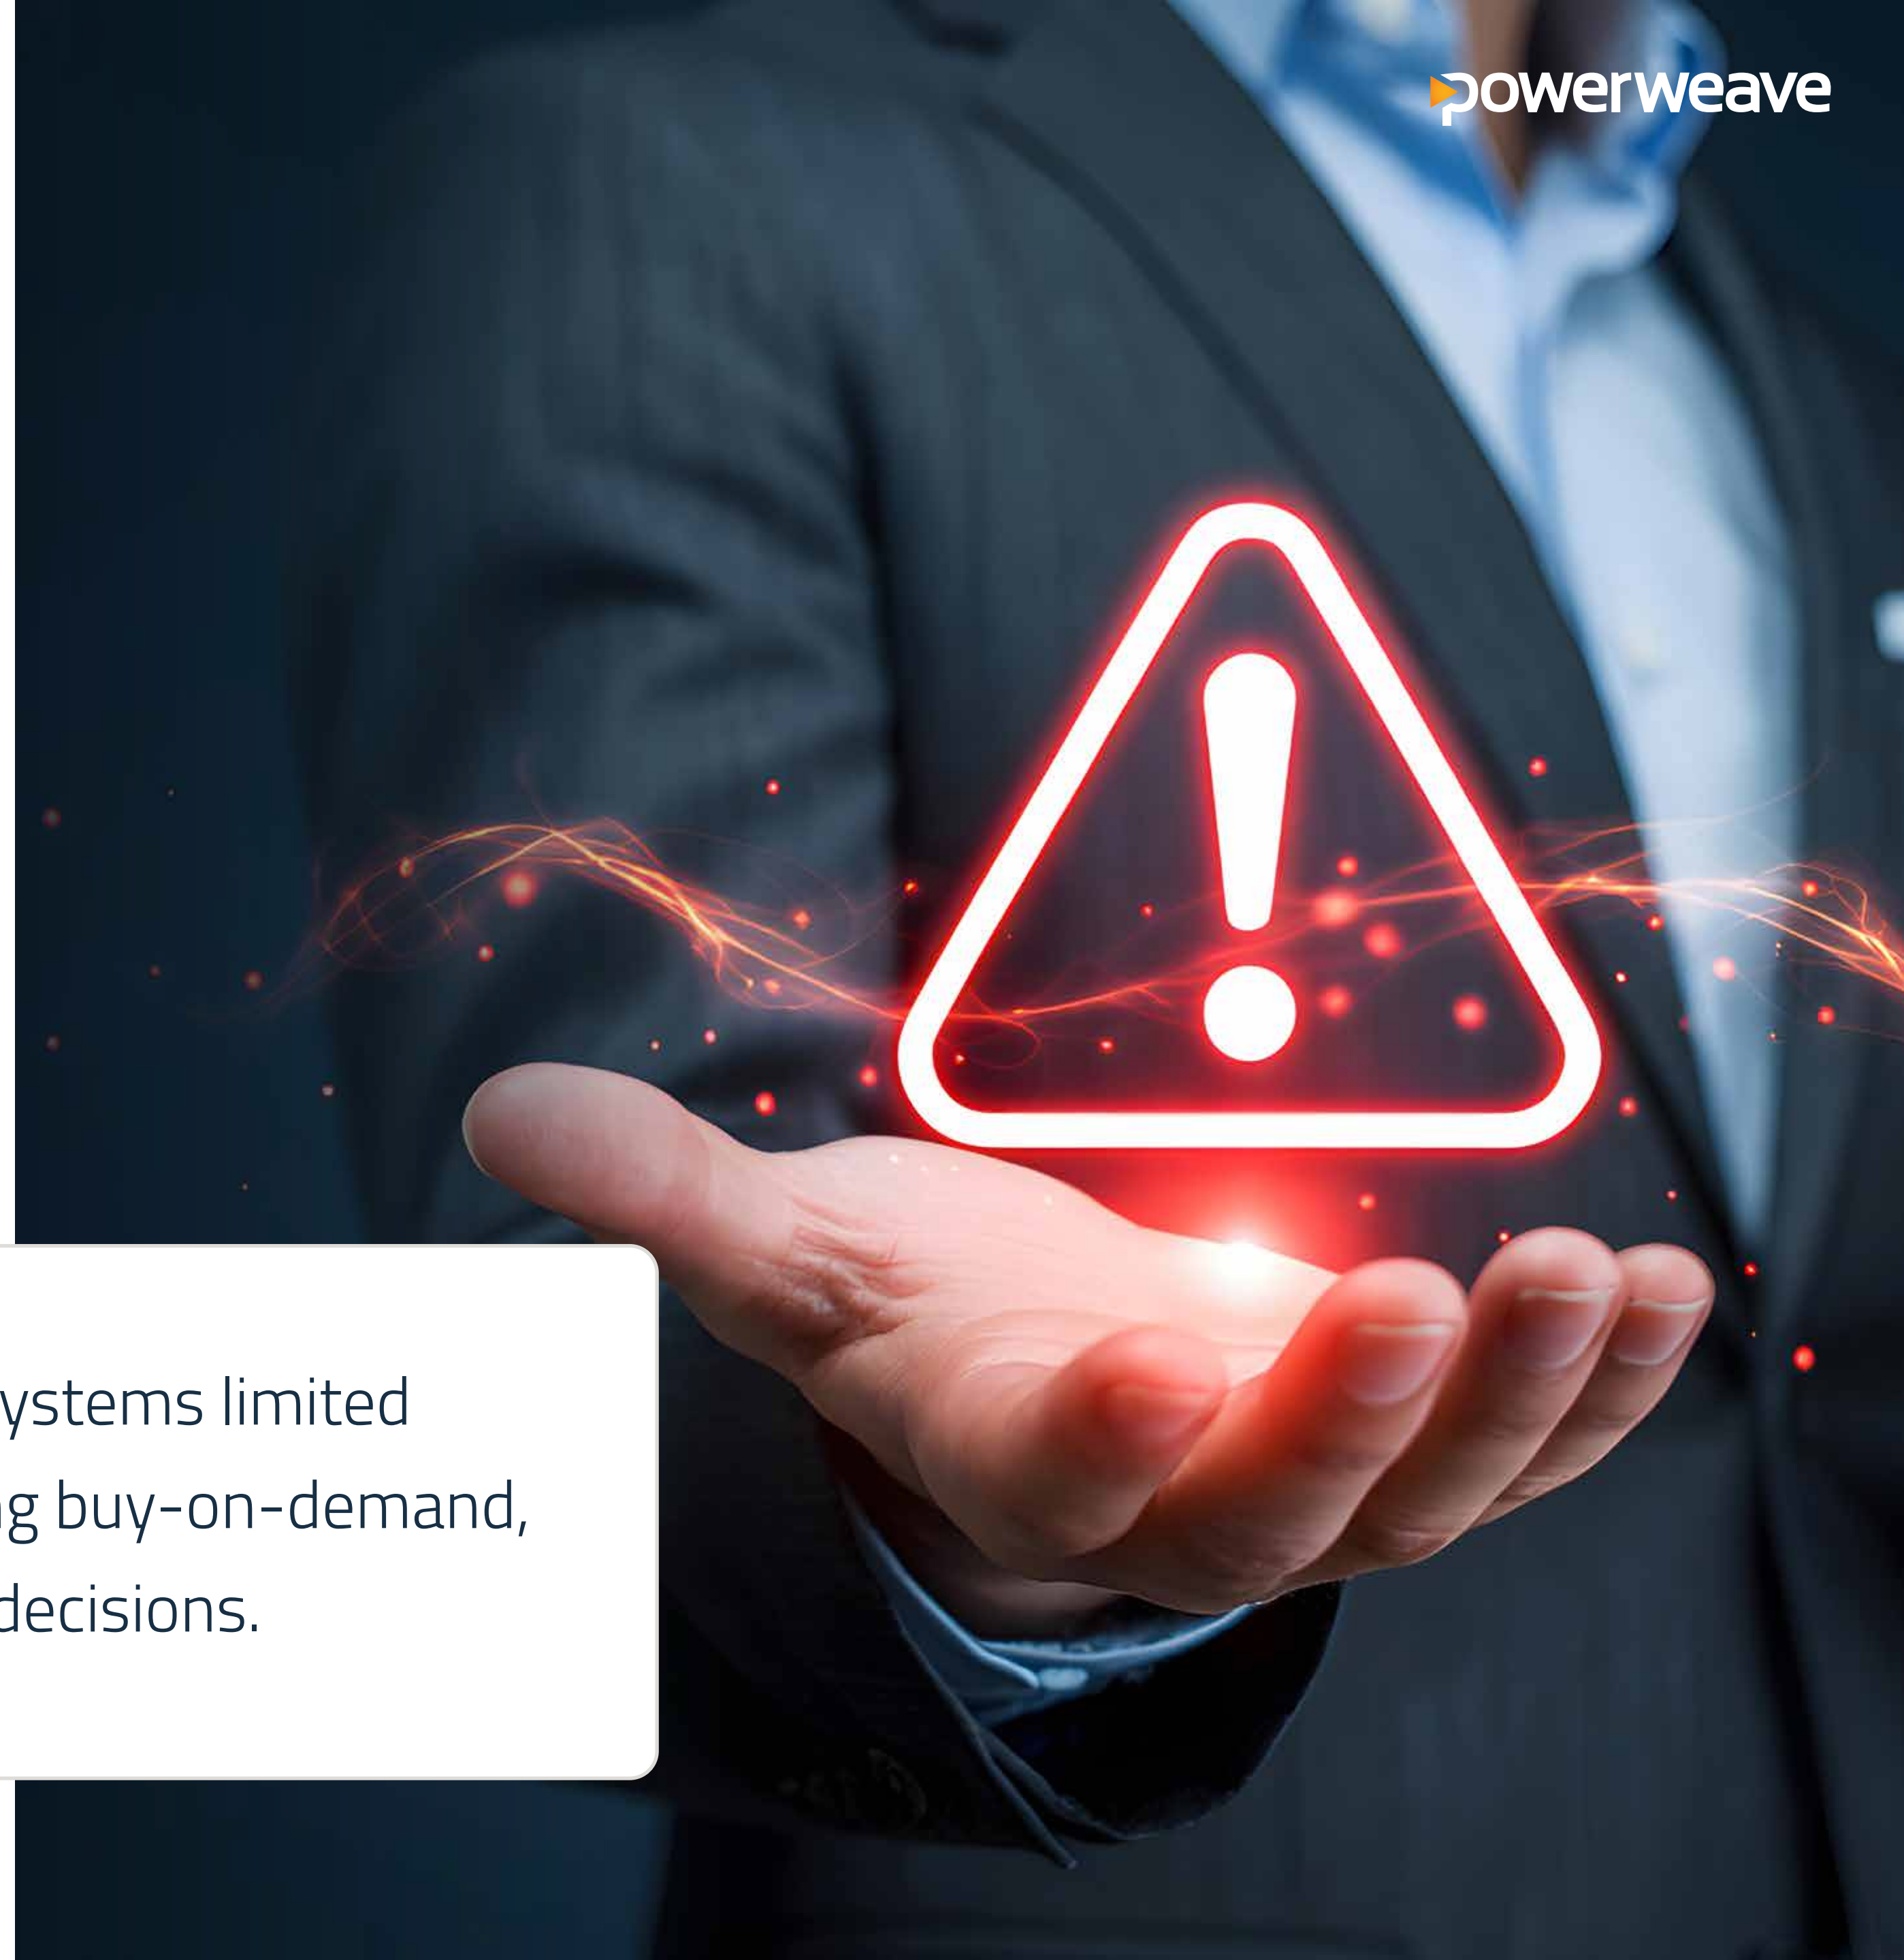

The challenge

Manual sourcing at scale

- ▶ Manual workflows for sourcing, inventory, and warehousing
- ▶ Fragmented tools and siloed operations across ERP, suppliers, and portals
- ▶ No buy-on-demand capability
- ▶ No analytics to forecast or optimize stock movements
- ▶ No visibility into demand patterns across clients and categories

Manual sourcing and disconnected systems limited scale, visibility and control, preventing buy-on-demand, forecasting and real-time inventory decisions.

How ewiz procure helped

How ewiz procure helped

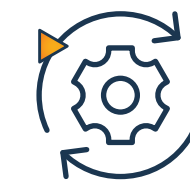

Supplier & catalog onboarding

- ▶ Supplier systems integrated for live stock sync
- ▶ Curated catalogs linked with warehouse inventory
- ▶ ERP integration for seamless transaction flow
- ▶ Custom client storefronts with permission-based access
- ▶ Pre-order stock triggers linked with demand analytics

Platform experience

- ▶ Amazon-like B2C UX for easy adoption by client teams
- ▶ Real-time product updates, price mapping, reorder notifications
- ▶ Fully responsive across devices
- ▶ All SKUs branded and customized as per clients' needs
- ▶ Localized in 5+ languages and currencies

Workflow automation & system integration

- ▶ Automated warehouse mapping and quantity allocation workflows
- ▶ Real-time inventory visibility across all sourcing portals
- ▶ Integrated with ERP for seamless PO and order processing
- ▶ Auto-synced supplier data (product specs, availability, pricing)
- ▶ Enabled end-to-end transaction flow without manual intervention

How ewiz procure helped

Data security, scalability & compliance

- ▶ SSO-enabled access for all Fortune 500 client portals
- ▶ Multi-language and multi-currency capability across 7 countries
- ▶ ISO 27001 & SOC 2 certified platform with enterprise-grade controls
- ▶ Role-based access controls and transaction audit trails
- ▶ Designed for scalable rollout of new brands, portals, and suppliers

Platform onboarding & training

- ▶ Provided initial platform walkthroughs for sourcing and operations team
- ▶ Delivered functional training on sourcing portal usage and inventory workflows
- ▶ Role-specific training for catalog managers, approvers, and sourcing leads
- ▶ Hosted change management workshops to drive adoption & stakeholder alignment
- ▶ New user onboarding with on-demand training sessions

Adoption support & maintenance

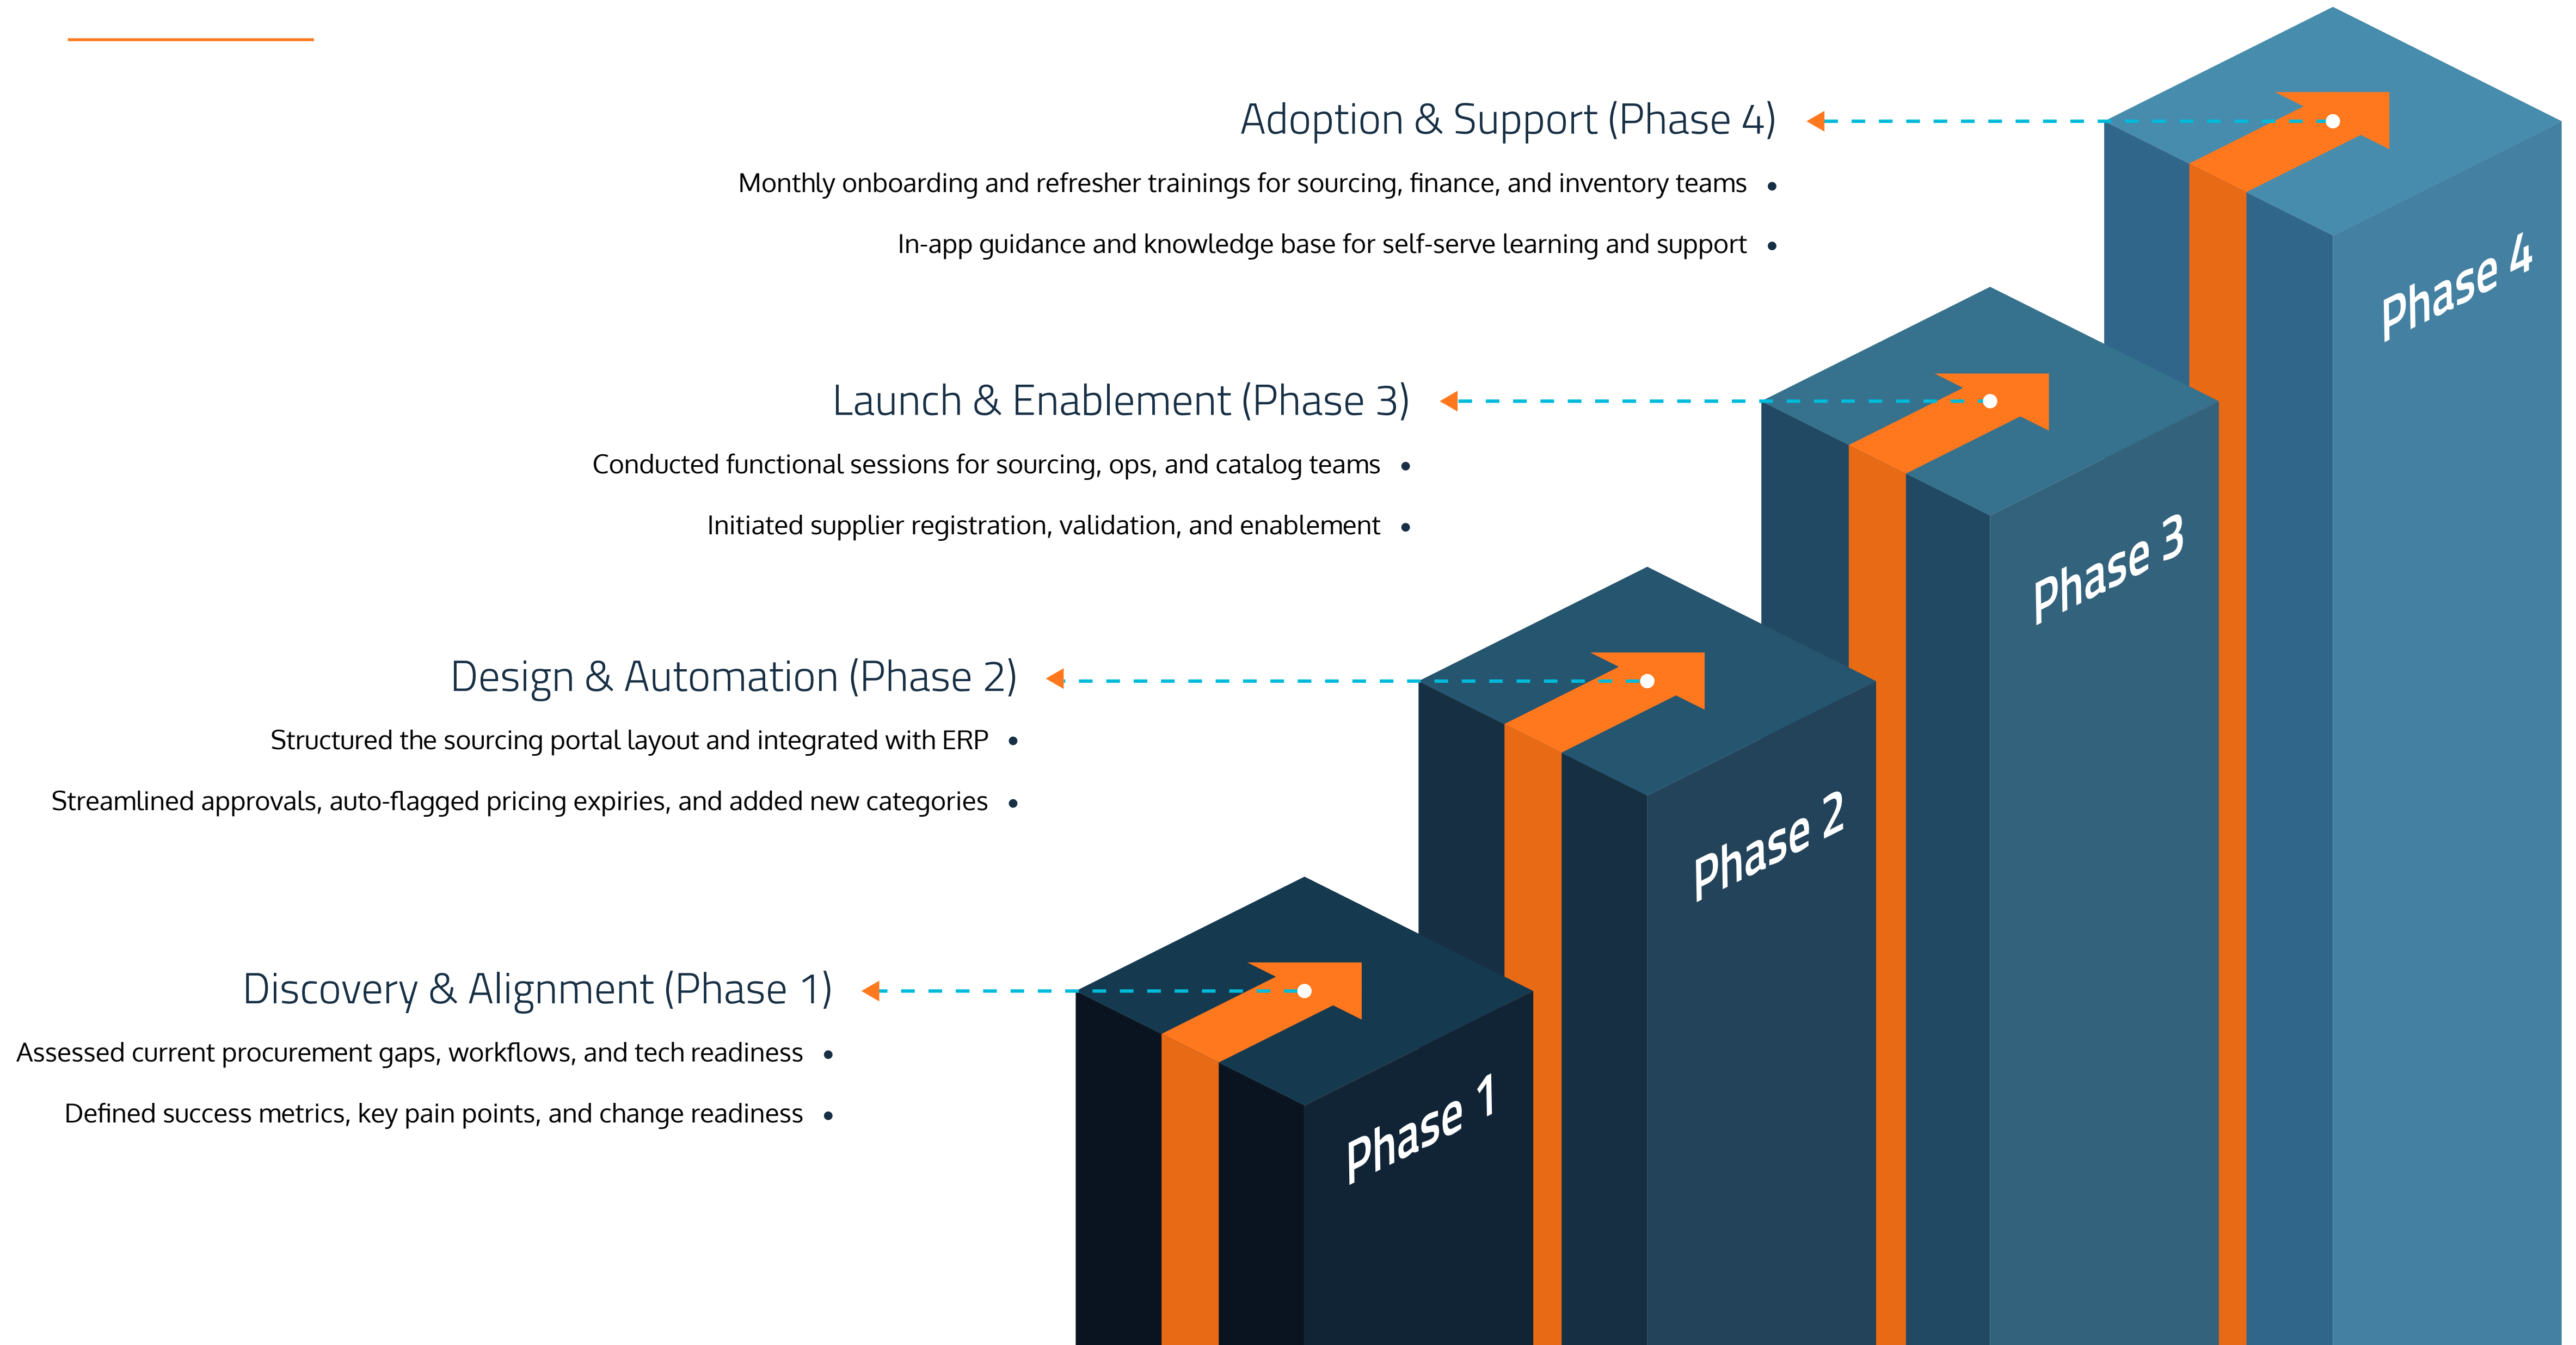

- ▶ Regular maintenance, bug fixing and uptime support
- ▶ Helpdesk support with ticketing for regular support
- ▶ Assigned dedicated Adoption Success Manager for ongoing rollout coordination
- ▶ Maintained knowledge base with FAQs, video guides, and SOPs
- ▶ Delivered refresher training during new feature rollouts or policy updates

Before ewiz procure, we were navigating chaos—manual orders, missed reorders, no visibility. This solution has completely overhauled how we run sourcing and fulfillment. Now we operate with agility, precision, and predictability across global accounts.
